SUMMARY

Aspiring and dedicated Full Stack Java developer with hands-on experience in building web applications using HTML, CSS, JavaScript, ReactJS, Java, SQL, and Spring Boot. Eager to learn and grow, continuously working on enhancing my skills. Excited to contribute to challenging real-world projects while continuously learning and growing in a dynamic team environment

.

EDUCATION

East West Institute of Technology (VTU Affiliated)   **Bengaluru, Karnataka**

Bachelor of Engineering, Computer Science (7.41 CGPA)   2020-2024

Mount Carmel PU College   **Bengaluru, Karnataka**

Class 12 (83.83%)   2018-2019

Assumption English School   **Bengaluru, Karnataka**

Class 10 (97.6%)   2016-2017

SKILLS

- **Languages:** Java, JavaScript, HTML, CSS, SQL
- **Frameworks/Library:** Spring Boot, React JS
- **Databases:** MySQL
- **Tools:** Postman, Eclipse IDE, Visual Studio Code

PROJECTS

Online Movie Ticket Booking System

- Built a web application using Java, Servlets, JSP, JDBC and MySQL with features for user registration, login and ticket booking, implementing CRUD operations and database integration.

Tic Tac Toe Game (React JS)

- Developed a Tic-Tac-Toe game in React featuring player name input, turn tracking, and real-time winner display.

Retail Sales Analysis (SQL, MySQL)

- Created and analyzed a retail sales database, performing data cleaning and exploratory analysis to uncover sales trends and customer insights. Utilized SQL queries to answer key business questions, such as total revenue and best-selling products.
